Global Aiptek Corp. won an iF DESIGN AWARD 2017

Global Aiptek Corp. was a winner of this year's iF DESIGN AWARD, a world-renowned design prize. The winning product, iBeamBLOCK L400 Deluxe, won in the discipline Pico Projector, in the TV/Camera category. Each year, Germany's oldest independent design organization, Hannover-based iF International Forum Design GmbH, organizes the iF DESIGN AWARD.

The competition was intense: over 5,500 entries were submitted from 59 countries in hopes of receiving the seal of quality. The iBeamBLOCK won over the 58-member jury, made up of independent experts from all over the world, with its unique design, outstanding features and powerful performance. Inspired by LEGOS, the iBeamBLOCK is the first stackable HD projector with a Win10 tablet and power bank combined. It makes displaying digital content and multimedia a cinch! iBeamBLOCK's modular design comes packed with everything (Wi-Fi, Bluetooth, USB, MicroUSB, MicroSD card, HDMI interface, etc.), plus all components connect (magnetically) without any cords! More information about the iBeamBLOCK can be found in the "Design Excellence" section of the [iF WORLD DESIGN GUIDE](#).

About Global Aiptek Corp.

Founded in October 2015, GAC is a spin-off company created from the de-merger of the highly successful 'Pico Projection' business unit of Aiptek International Inc – a renowned technology innovator with many "World 1st" accolades, competitive patents in digital imaging, wireless video and audio products. GAC subsequently acquired Aiptek's largest international subsidiary - Aiptek Germany – to collectively strengthen the support and service functions in order to operate effectively in the EMEA market. In March 2016, the 'GAC USA' subsidiary, located in Chicago IL, began operation to serve and focus on growth in the North American Market.

In an era where the demands of an active and on-the-go lifestyle require our devices to move with us without compromises, Aiptek develops smart mobile projection systems which empower, inspire, entertain and enrich everyone's life. Aiptek projectors create outstanding visual and aural experiences and provide a superior user experience, high quality, portability and performance.

About the iF DESIGN AWARD

Since over 60 years, the iF DESIGN AWARD has been recognized as an arbiter of quality for exceptional design. The iF label is renowned worldwide for outstanding design services, and the iF DESIGN AWARD is one of the most important design prizes in the world. Submissions are awarded in the following disciplines: Product, Packaging, Communication and Service Design, Architecture and Interior Architecture as well as Professional Concepts. All awarded entries are featured on the [iF WORLD DESIGN GUIDE](#), in the [iF design app](#) and are displayed at the [iF design exhibition Hamburg](#).
